IT WAS A WOMAN

RECENT FIRES AT THE COUNTY HOME WAS CAUSED BY A FEMALE.

MRS. ALICE MOORE IS ARRESTED

When Taken Into Custody She Confessed to Having Instigated the Three Attempts to Burn the Building.

Mrs. Alice Moore, a plain-appearing woman, about 30 years old, was arrested by Sheriff M. T. Henderson at 10 o'clock this morning charged with arson.

She made a confession, stating that she was instrumental in the three attempts to burn the Pettis County Home, north of Sedalia, and implicated "General" Gentry and Henry Plumber, inmates of the institution, both of whom had previously been arrested, charged with complicity in the offense.

Mrs. Moore's sole reason for doing the work, she said, was that she was angry with the officers in charge of the Home because they had sent her children to the orphans' home in St. Louis.

Immediately after her arrest she was taken to the county jail and confined in the female department. Her examination will not be held until Prosecutor H. D. Dow sets the date.

Mrs. Moore formerly lived at Green Ridge. Her husband was a farm hand, and while at work on a farm near there several months ago suffered an injury to one hand, which later developed into blood poisoning.

Moore was brought to the City hospital here, where he underwent treatment for several weeks. He finally died. Mrs. Moore and her three children were then sent to the County Home.

Shortly afterwards Mrs. H. C. Hatton, superintendent, took the three children to the Christian church's orphanage in St. Louis. It was then that Mrs. Moore conceived the idea of burning the building.

She decided to set fire to the place. She broached the subject to Gentry, who was also dissatisfied with the Home and desired to leave. He, according to Mrs. Moore's confession, readily agreed to do his part. According to the arrangement, Mrs. Moore was to place the kindling and oil and Gentry was to touch the match. He did so twice, and Plumber, the first of the firebugs arrested, touched the match the third time.

Each attempt was frustrated by the timely arrival of the officers of the Home. After the discovery of the first fire, Mrs. Hatton notified the county authorities. They at once began guarding the place. Several days later Plumber was arrested. He appeared feeble-minded and with a childish laugh, told that he had done the work, unaided, in order to "get even" with the officers for not allowing him to go to his relatives at Garnett, Kan.

His story did not set well with Sheriff Henderson, who instructed his deputies to investigate the attempts at arson more thoroughly. They did so, and Tuesday night Gentry was arrested. He, however, did not confess.

The arrest of the two men did not satisfy Sheriff Henderson, for he thought there was some one else wanted, more so than the two then in jail. Today he proceeded to the Home and arrested Mrs. Moore. She confessed at once. In fact, she confessed to Mrs. Hatton before retiring last night.

It developed shortly after Mrs. Moore's arrest that at the time her children were sent to the orphans' home she threatened to set fire to the County Home.

The arrests of the trio, according to the officers will cause a cessation of the attempts to burn the Home.

BURIAL MADE TODAY

Last Sad Rites Conducted Over Remains of Mrs. Sullivan.

The last sad rites over the remains of Mrs. Daniel Sullivan, who died Tuesday morning, were conducted at Sacred Heart church during the celebration of solemn requiem mass at 9 o'clock this morning.

The Rev. Fr. Stanislaus Neiberg, the pastor, was celebrant, and the Rev. Fr. Rudolph Stoltz deacon and the Rev. Fr. Remiguis Monnin subdeacon.

The funeral sermon was preached by the pastor. It was beautiful and touching and was a fervent tribute to the life of the beloved dead, who was characterized as a devout Catholic woman.

The floral offerings were numerous, consisting of sheaves of roses and carnations, so profuse in number as to completely cover the communion railing.

The members of the Altar society, of which deceased had been a faithful member, attended in a body, the largest throng ever assembled on a similar occasion being present.

After the services at the church the remains were conveyed to the Catholic cemetery, where burial was made.

The pallbearers were: John W. Murphy, John L. Sullivan, Michael McGinley, Dennis Connor, Patrick McEnroe and P. E. Sullivan.

BROUGHT EVIDENCE

MAYOR BABCOCK AND ALDERMAN McKENZIE RETURN FROM KANSAS CITY.

IN INTEREST OF INJUNCTION SUIT

Say That They Have Testimony Showing That $60 Per Year Is a Good Rate for Street Lights.

Mayor J. L. Babcock and Alderman A. W. McKenzie, of the Fourth ward, returned last night from Kansas City, where they secured evidence, which will be submitted at the injunction suit of the City of Sedalia vs. the Sedalia Light & Traction company, which is to be called in the Pettis county circuit court during the February term.

"We are not prepared to furnish anything for publication at the present," one of the gentlemen stated today, while in conversation with a Democrat-Sentinel reporter, "but when the injunction suit is called we hope to produce evidence to show that $60 is a goodly sum for a city to pay for each street light and that such a price will net a neat profit on the company's investment."

The injunction suit referred to was instituted here some time ago by City Attorney W. W. Blain to prevent the Sedalia Light & Traction company from discontinuing furnishing the city of Sedalia with street lights, as the company had threatened to do.

The city contends that $60 is a reasonable sum to be paid, while the company asks $75. This the city officers would not agree to pay. As a result Supt R. B. Hamner threatened to quit furnishing lights on December 31, last.

A temporary injunction was granted and it devolves upon the plaintiffs to show that $60 is enough money to pay for the lights. Messrs. Babcock and McKenzie while in Kansas City, secured expert testimony to show that such a rate will be profitable for the company.

SIT IN MURDER TRIAL

Judge Louis Hoffman Went to Lawrence County Today.

Hon. Louis Hoffman, judge of the Pettis county circuit court, left this morning for Mt. Vernon, Lawrence county, where he was called to sit in a murder case, wherein a young man is charged with shooting his sweetheart.

The case has attracted wide interest in all parts of the state. In December Judge Hoffman was called to Neosho, Newton county, where the alleged crime was committed and where the case was originally called.

Owing to the feeling against the defendant in that county the defendant's attorneys asked for a change of venue and Judge Hoffman sent the case to Lawrence county, where he was called to sit as judge.

TAKEN HOME LAST NIGHT

Mrs. G. W. Barnett Removed Home From Maywood Hospital.

Mrs. G. W. Barnett, who eight weeks ago Tuesday was removed to Maywood hospital to undergo treatment for nervousness, was taken to her home, on West Broadway, last night.

Mrs. Barnett's condition up to a fortnight ago had been critical, but there is a material change for the better at present and the attending physician, Dr. E. A. Wood, feels confident of her early recovery.

BE BURIED FRIDAY

OBSEQUIES OF GEORGE P. B. JACKSON TO BE HELD IN ST. LOUIS TOMORROW.

SEVERAL SEDALIANS TO ATTEND

Death Came as a Great Shock to All His Friends—His Immediate Family With Him at the End.

The funeral of George P. B. Jackson, formerly prosecuting attorney of Pettis county, and for years general attorney for the M., K. & T. railway system, with headquarters in St. Louis, will be held at the home of the deceased in the Mound City at 2 o'clock tomorrow afternoon.

Mr. and Mrs. John Montgomery, jr., Mr. and Mrs. Perry DeWeese, Mrs W. S. Sneed and Lee Montgomery of this city, will attend the funeral.

His Life and Career.

The St. Louis papers this morning had the following in relation to Mr. Jackson and his death:

George P. B. Jackson, for more than twenty years general attorney for the Missouri, Kansas and Texas railroad company in Missouri and one of the best known attorneys at the St. Louis bar, died of pneumonia at his home, 19 Thornby place, at 1:30 yesterday afternoon. Mr. Jackson had been ill a week. He was at first thought to have contracted grip, but rapidly developed symptoms of pneumonia. He became very weak Tuesday night and yesterday morning seemed to have a premonition he would not survive the day.

While in his 64th year Mr. Jackson was remarkably vigorous and seldom ill. The death of his little granddaughter, the child of Mrs. Harvey G. Dunham, who was a favorite of his, about three months ago, affected him greatly and he had aged considerably in appearance since her death.

He was an elder and an active worker of Brank Memorial Presbyterian church, and his pastor, Rev. Dr. Rockwell S. Brank, was with him when he died. His wife, Mollie V. Jackson; his brother, John M. Jackson, of Scotia, Crawford county, Mo., and his children, George Vest Jackson, who was his assistant in the legal department of the Missouri, Kansas and Texas Railroad company; Mrs. Harvey G. Dunham and Sallie Vest Jackson were also with him.

The funeral arrangements had not been completed last night pending the arrival here of his brother, Clifford L. Jackson, general attorney for the Missouri, Kansas and Texas at Muskogee, Ok.; and his sisters, Miss Varina Jackson, of Minneapolis, and Mrs. U. G. Stevens, of Sedalia, Mo., who were notified and were en route here last night. The services will probably be held Friday afternoon. Dr. Brank will officiate. Burial will be in Bellefontaine cemetery.

Mr. Jackson was born in Pittsburg, Pa., Nov. 28, 1846. He was the son of George Jackson, who emigrated from England, and subsequently settled in the south. His mother was, before her marriage, Miss Anna A. Gillis, whose family were early settlers in Pennsylvania. He prepared for college at Dayton, Ohio. During 1863 and 1864 he was a student in the law school of Michigan university at Ann Arbor, while his family, who were southern sympathizers, lived in Canada. He subsequently joined them in Canada, where he read law under the direction of Judge William Pryor, afterward of the Kentucky supreme court.

Married Senator Vest's Daughter.

At the close of the war his family returned to Louisiana. He was admitted to the bar at Thibodaux, La., in the autumn of 1866. He later removed to Sedalia, Mo., where, in 1877, he married Miss Mollie Vest, a daughter of the late Senator Vest, of Missouri, who survives him.

He served as prosecuting attorney of Pettis county from 1876 to 1880, and while in this office secured the first conviction in a capital case and the first enforcement of the death penalty in that county. In 1879 he became a partner of Judge J. F. Philips. This partnership was dissolved when Judge Philips was appointed a member of the supreme court commission of Missouri in 1882.

In 1886 he united his practice with John Montgomery, the firm was known as Jackson & Montgomery. This firm, in 1888 became the attorneys for the receivers of the Missouri Kansas & Texas railroad. The partnership continued until 1895, when Mr. Jackson became general attorney for the reorganized Missouri, Kansas & Texas, which position he retained until the time of his death.

A brother of Mr. Jackson, Clifford C. Jackson, is general attorney for the Missouri, Kansas and Texas railroad in Oklahoma.

Besides his wife, three children and brother, who were at his bedside, Mr. Jackson is survived by two sisters, Miss Varina Jackson, of Minneapolis, and Mrs. U. G. Stevens, of Sedalia, Mo., who will attend the funeral.

Charles C. Jackson, a brother, died of pneumonia two years ago. Mr. Jackson's mother also died of the same malady.

Mr. Jackson was a long-time member of the Brank Memorial Presbyterian church, of which he was an elder. He belonged to the St. Louis and Mercantile clubs.

THE DAY NURSERY

SECOND MEETING OF THOSE INTERESTED WAS HELD THIS MORNING.

MUCH ENCOURAGEMENT IS FELT

Plans Are to Care for Children During the Time That Mothers Are Compelled to Be Out at Work.

At a meeting held this morning of those men and women who are making an effort to establish here in Sedalia a day nursery and hospital for poor children considerable progress was shown and consequently much enthusiasm aroused.

Charles E. West has been selected as temporary chairman and Miss Hattie Gold as temporary secretary.

As explained last week the intention is to begin in a very small way and increase the scope of the institution only as may be necessary. The main idea now is to have a place where poor parents, who want to do for themselves but are prevented on account of having to care for their children, can leave these children for a few hours or longer, as the case may be.

It is not expected to establish a permanent home for any child. It may be that it will become necessary at times for the institution to care for a sick child for several days. It may be that a child will be held for a few days until permanent arrangements can be made for its future, but the principal work of the home will be, as said before, a nursery for children too small to go to school and whose parents must go out to work. It will be the province of this institution to see that such children are properly cleaned, clothed, fed and taught by persons especially trained for such work.

It is a sweet work and a very good one, helping those who want to help themselves. All good citizens should lend their sympathy and at the proper time their pocketbooks to the work.

THEIR TENTH ANNIVERSARY

Mr. and Mrs. G. H. Lister Celebrated It Last Night.

George H. Lister, an efficient clerk for Nicholson & White, East Fifth street grocers, and wife, Wednesday celebrated the tenth anniversary of their marriage, and in honor of the occasion were very agreeably surprised at their home, 1019 East Fourth street, last night, when a large company of lady and gentlemen friends assembled to participate in the affair.

During the evening Mr. and Mrs. Lister were handsomely remembered with many beautiful wedding gifts. The program was diversified, and consisted of games and music, followed by serving of dainty refreshments, after which all returned home, wishing the couple the happiness of celebrating many more wedding anniversaries.

Began Work Today.

T. H. Johnson, the contractor, today began the preliminary work for the remodeling of the Odd Fellows building, at Fifth street and Ohio avenue. The work will be pushed to rapid completion.

Married by Judge Hoffman.

Isaac Siald, of Lincoln, Mo., and Maud E. Brown, of Eldorado Springs, were married by Circuit Judge Louis Hoffman at the court house this morning.

WAS BIG SUCCESS

FIRST DAY OF MISSOURI LAND CONGRESS WAS ONE OF ENTHUSIASM.

SPRINGFIELD FULL OF VISITORS

Program Was One That Held the Interest of All and Helped to Boom the Commonwealth—Wide Representation.

Springfield, Mo., Jan. 27.—With the opening of the Missouri Land and Industrial congress yesterday, under the direction of the state board of immigration, Springfield claimed the credit of entertaining one of the largest and most representative throngs of Missouri boosters ever assembled in the state.

There are boosters here from every part of the state and they comprise about the most active and enthusiastic crowd that ever congregated in a Missouri town, with one end in view—that of proclaiming to the world the advantages offered to the capitalist, the homeseeker and the wage earner by grand old Missouri.

Springfield has been taxed to the limit to care for the crowd. The principal hotels of the town are unable to provide for the throngs, but the citizens opened their homes to the visitors.

The first session of the congress was held at the Landers theater at 10 o'clock. Mayor Louis P. Ernst made the address of welcome, and John H. Curran, of St. Louis, chief commissioner, responded. This was followed by an address by Governor Hadley. More than 500 persons were unable to gain admission to the auditorium. At the same hour more than 1,000 persons were viewing the exhibits at the headquarters of the immigration bureau, across the street.

Governor Hadley's address dealt entirely with the wealth of Missouri and future possibilities of the commonwealth.

Yesterday's program of the land congress included three interesting sessions, in which some of the most prominent men in the state participated. H. A. Buehler, of Rolla, state geologist, delivered an address at the forenoon session, following the address of Governor Hadey, on "Missouri Mining Resources," and Prof. Durward Copeland, of Rolla, delivered an address on "Missouri Mining Experiment Stations." Prof. E. R. Buckley, of Joplin, president of the American Mining congress, closed the morning session with an address on "Missouri's Future Mining Possibilities."

At the afternoon session addresses were made by a number of visitors. Prof. Jordan, of Columbia, talked on "Missouri as a Corn State;" George W. Williams, of Humansville, talked on "Alfalfa in the Ozarks;" J. O. Swift, of the Kansas City Commercial club, talked on "Kansas City, Mo., U. S. A.;" H. G. Krake, of St. Joseph, talked on "St. Joseph and Development."

The afternoon session closed with addresses by H. J. Bube, of the St. Louis Million club, and William J. O'Brien, of St. Louis, on "Money for Missouri Development."

At last night's session Walter S. Dickey, of Kansas City, delivered an address on "Waterways of Missouri," illustrated with kinetoscope pictures. "Looking Backward" was the subject handled by Norman J. Colman, of St. Louis. "Ozark Development," by Col. Jay L. Torrey, of Roosevelt's Rough Riders, who now resides in Brandsville, in Howell county, proved a most interesting address.

Last night at the Colonial hotel, Col. Torrey entertained more than 100 workers in the immigration movement at a smoker. Among the guests was Col. Moses C. Wetmore, who announced that he is now negotiating for the purchase of 1,200 more acres of land in Taney county, adjoining his game preserve, and that he will spend $50,000 more in making it one of the greatest resorts of the kind in the world. New buildings are to be added, and wild game birds, elk, deer, buffalo and other game will be raised. Col. Wetmore is enthusiastic over the immigration movement.

Early in the morning the headquarters of the immigration commission was crowded with throngs of visitors from every part of Missouri. On the register were the names of delegates from eleven states. Hundreds more are still registering, and though it is impossible to estimate the attendance at the big congress, the fact that the Landers theater was packed to overflowing, and that the big four-story industrial building was also densely packed with visitors, indicates one of the biggest indoor gatherings that Springfield has ever entertained.

The states represented are Kentucky, Iowa, Ohio, Illinois, Kansas, Texas, Colorado, Oklahoma, Arkansas, Minnesota and Missouri. Frank S. T. Smith is registered from London, England.

Badly Injured Index Finger.

Regis Critchfield, a foreman for the E. N. Harrison Transfer Co., while unloading a piano in front of the S. R. Payne Music Co.'s house, on Ohio avenue, at 10 o'clock this morning, suffered a painful injury to his left index finger, when a box containng a piano fell on the member, mashing it to the bone. Dr. J. L. Fowler dressed the wound. It is thought amputation will be unnecessary.

WET OR DRY, WHICH

JOPLIN TODAY IS VOTING ON GREAT QUESTION OF LICENSE.

RESULT IN DOUBT AT 2 O'CLOCK

Both Sides Are Claiming Victory But the Result Can Not Be Known Until the Ballots Are Officially Counted.

Special to the Democrat-Sentinel.

Joplin, Mo., Jan. 27.—At 2 o'clock this afternoon the relative positon of the "wets" and "drys" in the local option election was unknown.

Both sides are fighting to the last ditch, and both claim a victory. All the home precincts are overwhelmingly dry, while the others are wet. It is not expected that the result can be told until the ballots are officially counted.

Women are actively engaged at the polls, serving coffee and sandwiches, and pinning white ribbons on the voters.

Joplin, Mo., Jan. 27—Joplin will decide today whether local option is to prevail or not, as the special city election called to settle the matter is in progress. The call for the election was issued the latter part of December, following the presentation to the council of a petition signed by 1150 citizens. Ever since that time a campaign never before equaled in bitterness and hard work in the history of the city has been in progress. Hundreds of women have taken an active part in the campaign and are at the polls today putting forth every effort to have Joplin voted "dry."

In many instances friendships of years have been strained almost to the breaking point, boycotts have been declared and in a few instances arguments have almost reached the riot stage.

Practically every automobile and hack in the city has been engaged by the "wets" to carry voters to and from the polls. Thousands of dollars have been spent the past few weeks and are being spent today in various ways to get results. Both sides claim victory.

Agitation of the local option question was started early in the winter, when Billy Sunday, the evangelist, was conducting a big revival service in the city.

DIED LAST NIGHT

Mother of Mrs. J. C. Settles Passed Away at Clinton.

Mr. and Mrs. J. C. Settles and son left this morning for Clinton in response to a message announcing the death of Mrs. Settles' mother, Mrs. Helen Shomaker, wife of T. L. Shomaker, a contractor, which occurred at 11 o'clock last night from heart trouble.

Deceased was 45 years of age and had been ill for some time. Mrs. Settles had been at her bedside, but returned home yesterday, when a change for the better occurred.

Deceased leaves her husband, a daughter and two sons, Howard and Jack, both of Clinton.

Funeral and burial services will be there tomorrow.

Sold Farm for $24,000.

A. J. Bowman Wednesday sold his 240-acre farm, located five miles west of Sedalia, on the Sixteenth street road, to George A. Millard, of Cuba, Ill., for $24,000. Mr. Millard will take possession on March 1. The deal was made by Weinrich & Stambaugh.

IS ON THE BRINK

PARIS, THE GAY CENTER OF FASHION, FACES UNKNOWN PERILS FROM FLOOD.

THE RIVER CONTINUES TO RAISE

Auteuil Viaduct Has Sustained a Break, and if It Gives Way the Entire City Will Be Flooded.

Paris, Jan. 27.—The stage of the flood waters here this morning exceeded all records back to 1615. Up to noon the river continued rising at the rate of three-fourths of an inch an hour.

The most alarming feature of the situation this morning was a fissure at the Auteuil viaduct at the foot of Paris. Should this give way, it would act as a dam and submerge the entire city.

Half the city was in darkness last night. In the gloom galloping orderlies were bearing instructions, which can no longer be sent by telephone. The army of police, firemen and soldiers gives the appearance of a city fighting for its life.

Every minute brings graver dangers. New regions are being inundated, quays are collapsing, yawning chasms appear in the streets.

The water of the Seine has invaded the labyrinth of underground Paris. It threatens ruin and destruction everywhere.

What new disaster will come to the water-logged city before the Seine begins to fall no one can predict.

Already the damage is officially estimated at $200,000,000, and every hour adds millions more. The catastrophe promises to exceed the limits of a national disaster and become international.

The death roll is also growing at a frightful rate, and when the epidemic, which appears inevitable, breaks out, it will run into thousands. Already scarlet fever has appeared among the refugees at Ivry.

Among the superstitious there is fear of the destruction of Paris as a result of the appearance of Halley's comet.

The public subscriptions have reached nearly $100,000, while the Red Cross and other relief societies have done noble work. Thousands of laborers and soldiers are working like mad to build cement walls to hold back the current which pours over the quays into the streets.

There is ten feet of water in the subway station in front of the Gare St. Lazare, and the sinking of the square threatens to carry down the adjacent buildings.

At a conference between the officials of the chamber of commerce and MM. Cachery and Dupuy, ministers of finance and commerce, respectively, it was decided to ask parliament to authorize an extension of time for commercial paper, because of the general disorganization of business.

Besides the failure of the gas and electric lighting plants, Paris is confronted with an oil famine. Scores of oil barges from Rouen are tied up in the Seine, and the great depots of distribution in the outskirts of Paris are flooded.

The prospecs for the immediate future is grave, as it is estimated that the Seine today will rise from two to three feet.

ENTERTAINED GRAND CLUB

Mrs. N. C. Smith Was the Charming Hostess Wednesday.

Mrs. Nelson C. Smith very delightfully entertained the members of the Grand club at her home, 405 West Seventh street, Wednesday afternoon. There were three tables of players, with a number of outside guests.

Mrs. J. C. McLaughlin, jr., won the club prize, a deck of cards, while the guest prize, a similar gift, went to Mrs. H. W. Servant.

Dainty refreshments were served during the afternoon.

Will Play at Boonville.

The Sedalia High school basket ball team will go to Boonville on the Katy Limted tomorrow, where during the afternoon they will play the team of the Kemper Military academy. The local players have won six out of ten games.

THE LAND FRAUDS.

When Carl Schurz was secretary of the interior he attempted to protect the public domain against the depredators, and was denounced in congress as a foreigner who had no sympathy with the hardy pioneers who were building up the great west.

Most of his successors avoided this treatment by letting the depredators go on, subject only to occasional and perfunctory efforts to punish the rascals. Commissioners of the general land office who manifested any vigor in stopping land frauds were forced out of office. Occasionally patents were held up for violation of the law, but there were few efforts to punish the men who were making fortunes by stealing the property of the nation.

At last Ethan Allen Hitchcock, of Missouri, became secretary of the interior. At once he opened war on the land pirates. He procured a number of convictions. He rescued a considerable area for the home-seekers from the speculators, grazers and lumber dealers, who were getting in by perjury and subordination of perjury What he experienced in that contest he described in a letter to President Roosevelt, dated Nov. 30, 1906, a portion of which has recently been printed. In the course of this letter he said:

"All my efforts to release it (the public domain) from the grip of its despoilers have been met by every embarrassment that human ingenuity could devise; powerful influences have been concerned, and they have not hesitated to exert every agency they could command to weaken the hand of the law; even local land officials have been subservient to their purposes; their machinations seemingly at times have not been without paralyzing effect on the machinery of justice; too frequently the officers of the law appear to have been under the bewitching spell of their power; the punishment imposed by the courts has in many cases been so conspicuously inadequate as to encourage rather than deter violations of the law.

"Whether this official stagnation is due in any degree to local political influences to which these officials are more or less indebted for their commissions and the retention of their positions, it is not important to discuss in this paper."

About three months after writing this letter Mr. Hitchcock gave up the struggle and retired from office.

Among the convictions that had been secured were those of a United States senator and two congressmen. Since Mr. Hitchcock's retirement the official stagnation of which he complained has become apparent more and more, and the grave suspicions and open charges against the present secretary of the interior should be thoroughly investigated by the committee of both houses of congress recently appointed. Nothing should be left undone to get at the whole truth, no matter how anxious some of those in high places are to give Mr. Ballinger a coat of whitewash.

A NATIONAL SHELTER.

As a rule the lawyers shake their heads doubtfully when asked to give an opinion upon the propriety or constitutionality of President Taft's proposed national incorporation law for the shelter of the good trusts. There is shrewd criticism in the observation of a prominent New York attorney, who guardedly observes:

"As a matter of expediency, it is said that some corporations are too large for state control, and, being national in their powers and functions, must necessarily submit to a national jurisdiction. The proposed remedy is like that suggested by a lawyer who told his client that the easiest way to avoid the obligation of a forged bond would be to forge a release. If the corporations are too large it would be better to see that they are made smaller, and that no one is allowed to be of such size as to control all the national markets in any staples commodity."

As a matter of fact, the monster corporations that exist in this country, whether engaged in trading, insurance, transportation, banking, mining or other fields of mononolistic effort or of specutlation are an appalling danger. They stand in need of curb, not of protection. Admitted to shelter under the federal arm, they would soon control the federal power to their further aggrandizement and the more effectual plundering of the mass of the people.

ONE OF THE HIGHER UPS.

Charles P. Heike, secretary of the American Sugar Refining Co., has been indicted by the federal grand jury in New York for conspiracy to defraud the United States. He is said to have held a confidential relationship to the late Henry O. Havemeyer, who was for many years the head and master of the great trust.

His indictment therefore menaces the highest officials of the corrupt organization, and gives promise of a general vindication of the law. The indictment is the more gratifying because there has been a widespread fear that the prosecution would not be able to obtain evidence directly connecting the higher officers of the company and of the government with the frauds committed by the weighers of the customs house. The fear was largely due to the attitude of the convicted weighers when on trial. At the time of pronouncing sentence upon them the judge intimated that he might have been lenient toward them had they shown any spirit of penitence.

"However," said he, "such is not their position. They challenge the verdict, they deny their guilt, they take the position that what they did was done voluntarily, without orders from higher officers, not that I believe this is the fact, but that is their position before the court."

It is not likely that the "higher ups" in the refining companies dealt directly with the weighers on the docks. It is a fair assumption that they had matters arranged with the "higher ups" in the customs service. The indictment of Heike is therefore a matter of general gratification. We may get at the real guilty parties in this case after all.

If the recent Boston election did nothing else it demonstrated that a party nomination is not necessary to awaken public sentiment and bring out the voters. Four candidates for mayor were nominated on petition, and the total vote was the heaviest ever cast. One of the curious features of the election was that while it took 5,000 signatures to put a candidate in the running, the two tail-enders got only about 2,500 votes between them.

Napoleon said that victory perched on the side which had the heaviest cannon, and as the Danville Cannon is on the side of the trusts, we think we can see where the people are going to get it once more.

Deafness cannot be cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

DEMOCRATIC LEAGUE MEETS

Delegates From All Parts of New York State Gather in Albany.

Albany, N. Y., Jan. 27.—Delegates from nearly all of the 150 assembly districts of the state were present this afternoon at the meeting of the general commitee of the State Democratic league, which was organized at the Saratoga conference last September. The league backers hope to reorganize the democratic party of the Empire state along conservative lines. Its purposes are announced to be as follows:

To spread the knowledge of fundamental democratic or liberal principles.

"To stimulate interest in the democratic party organization as the best and most natural means of carrying those principles into effect.

"To bring back into the party in this state such democrats as disgust with its failure to stand for its principles and distrust of its recent leadership have driven out.

"To aid in the nomination and election of such democrats as worthily represent liberal principles and are not mere self-seekers.

"To aid in the selection of such men to direct the party organization as represent the character and intelligence of the party and not its baser elements.

The policy of the Democratic league is to ignore the present leaders where they do not represent the character and intelligence of the party, and seek by every means in its power to secure in the future the selection and election of proper men.

For this purpose its members should be willing personally to strike hands with all democrats, however we may have differed with them in the past, to secure the triumph of democratic principles and the success of democratic candidates so long as they represent those principles. Only by such united action can victory be won.

Have you a weak throat? If so, you cannot be too careful. You cannot begin treatment too early. Each cold makes you more liable to another and the last is always the harder to cure. If you will take Chamberlain's Cough Remedy at the outset you will be saved much trouble. Sold by All Dealers.

She Was the "Party."

A matron of the most determined character was encountered by a young woman reporter on a country newspaper, who was sent out to interview leading citizens in regard to their politics, says an exchange.

"May I see Mr. ——?" she inquired of the stern-looking woman who opened the door at one house.

"No, you can't," answered the matron decisively.

"But I want to know what party he belongs to," pleaded the girl.

The woman drew up her tall figure. "Well, take a look at me," she said. "I'm the party he belongs to."

Devils Run Papers.

Sioux Falls, S. D., Jan. 27.—South Dakota "devils" and other subordinates of the country print shops, county seat weeklies and city daily papers will have an opportunity during the next few days to give expression to their journalistic genius. A large portion of the editors and publishers of the state are the guests of Sioux Falls today at the annual meeting of the South Dakota Press association, and will remain here tomorrow. Speakers of wide experience will tell how a country publisher, with good luck, may keep a safe distance ahead of the wolf. Several South Dakota publishers who are known to be prosperous, having money in the bank, will be called upon to explain.

GOMPERS IS SIXTY

LEADER OF AMERICAN FEDERATION OF LABOR PASSES THREE SCORE MARK.

CONGRATULATIONS ARE RECEIVED

Under the Shadow of a Jail Sentence the Veteran Celebrates His Natal Day—He Don't Seem Much Worried.

Washington, Jan. 27—Messenger boys were kept busy this morning carrying congratulatory messages to the offices of the American Federation of Labor. They came from labor leaders and friends of the union cause all over the world, and one and all congratulated President Samuel Gompers upon having attained the mature age of sixty. President Gompers was born in London, on January 27, 1850, and reaches the three-score mark under the shadow of a jail sentence. He isn't visibly worried about that, however, and if he is forced to jail, he will likely show himself to be a mighty cheerful martyr.

Mr. Gompers is without question the leading figure of organized labor. For twenty-five years—without one single blank—he has been the head of the American Federation of Labor. He was the Moses that found the federation in the swamp, in fact, when it was a small and puny babe. He nursed it along until it was able to stand on its own feet and fuss, and it has stood by him. He has not been immune from criticism during this period. Perhaps no one has been more bitterly attacked. But he has always retained the confidence of a majority of the Federation, and even those who have opposed him have based that opposition on a disagreement with his methods, rather than upon any lack of confidence in the whole hearted devotion of the man to the cause he serves.

Jail Almost Finished.

Platte City, Mo., Jan. 27—Platte county will soon have a brand new jail in which to entertain violators of the law. Much of the steel used in the construction of the jail is "tool proof," that is, it consists of alternate layers of iron and hardened steel welded together. Tool-proof steel is capable of withstanding twelve hours test against saws, files, chisels and drills. The contractors are putting on the finishing touches.

The deal was made by Weinrich & Stambaugh.

THE HAIR BRUSH

Breeds Dandruff, Which Causes Falling Hair and Finally Baldness.

Prof. Unna, Hamburg, Germany, European authority on skin diseases, says that dandruff is as contagious as any other malevolent disease, and that one common source of the spread of dandruff is the use of the same hair brush by different persons. The way to avoid catching dandruff or any other disease from another's brush, is to insist on the use of Newbro's Herpicide. It not only kills the dandruff germ, but it is also an antiseptic that will prevent the catching of any disease whatever through contagion of another's brush. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

HEARING FOR COHN

Waiter Who Ran Away With Heiress in Court Tomorrow.

Phiadelphia, Jan. 27.—Ferdinand Cohen, the waiter who ran away with Miss Roberta De Janon, will be given a further hearing tomorrow on the charge of kidnaping.

Counsel for Cohen will insist that under the law he has committed no crime. It is alleged that the girl went with him willingly, and she herself admitted that she alone was responsible for the affair. Police officers have made emphatic statements that Cohen did not harm the girl. Robert Buist, grandfather of Miss De Janon, is active in the prosecution of the waiter and has engaged able counsel to assist in making a case against him.

Want to See Shows.

Slater, Mo., Jan. 27.—A movement to build an opera house or some kind of a public building is being agitated by a number of business men and other interested parties in Slater. With a good opera house it is thought that a number of good shows could be billed here. A building of this kind is needed frequently, and it is hoped that the promoters of the enterprise will be successful in carrying out their plans. It is stated that an effort will be made to secure from $15,000 to $20,000 for the purpose.

Distiller in Asburg Can Not Be Put Out of Business for a Year.

Asbury, Mo., Jan. 27.—Thomas Lofton, who conducts a distillery near here, will be able to continue the manufacture of liquors for at least another year in case Jasper county should go dry. This is made possible, it is stated, on account of the action of the county court in granting him a license to manufacture and sell spiritious liquors for one year, ending Jan. 20, 1911. The county judges state that all saloon licenses are good until they expire, whether local option carries or not. If a license is granted the day before an election it will entitle the holder to run a saloon during the time specified, no matter how the election goes. Lofton is not allowed to sell less than one gallon at a time, according to the license.

Woman's Power Over Man

Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, no one in the wide world can know the heart agony she endures. The woman who suffers from weakness and derangement of her special womanly organism soon loses the power to sway the heart of a man. Her general health suffers and she loses her good looks, her attractiveness, her amiability and her power and prestige as a woman. Dr. R. V. Pierce, of Buffalo, N. Y., with the assistance of his staff of able physicians, has prescribed for and cured many thousands of women. He has devised a successful remedy for woman's ailments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for the weaknesses and disorders peculiar to women. It purifies, regulates, strengthens and heals. Medicine dealers sell it. No *honest* dealer will advise you to accept a substitute in order to make a little larger profit.

IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

Taft Elected Member of Order.

New York, Jan. 27.—Announcement was made today of the election of President Taft as a member of the New York commandery of the Military Order of Foreign Wars of the United States. The order comprises about 1,800 members, largely military officers and veterans, all over the United States. The election of President Taft is in accordance with the custom of choosing the president of the United States to membership

TABLE EXPENSE

Is a mighty important question in every household—it's one that needs serious thought.

Most things bought for the house last a long time, and it usually pays to look at the quality more than the price.

In groceries, as in the other things, quality counts as much as price. This can easily be proven, by close watch upon the table expense for a month.

Good grades of groceries make little waste, and the waste is worth more consideration than an occasional extra penny or two.

Here is a selection of staple goods, at prices that are actual economy.

For the Woman Who Has Beautiful Hair

(New York Theatrical News)

The beauties in the Ann Held chorus are famous for their pulchritude. Their coiffures add a great deal to their charms. How they can "manage" such abundance of beautiful tresses day in and day out, keeping always the same well-groomed appearance, is beyond the ken of the average woman. But, listen while I whisper, these girls depend altogether upon dry shampooing to keep their hair fine and glossy.

They mix 4 ounces of powdered orris root with 4 ounces of therox, and they are prepared for a season's shampooing. Once or twice a week they sprinkle a tablespoonful of this mixture on the head and then brush the powder well through the hair. That is all there is to it, and they have escaped the bother and discomfort that accompany washing, rinsing and drying the hair, together with the danger of catching cold.

The wonderful results they achieve with therox convinces me that it is the only thing that can grow hair, for their hair is long and abundant in addition to being fluffy and lustrous.

Sedalia Traveling Salesman Tells How He Was Buncoed.

Joe Steehn and John Hicks, the meat sellers, Sam Livingston, the commercial tourist, and Carl Borgelt, another meat salesman, were eastbound passengers on Missouri Pacific train No. 22 at 10:40 o'clock this morning in the interest of their respective businesses.

The quartette comprises four of Sedalia's most energetic traveling men and as they occupied seats together, Carl, who recently made application to become a naturalized citizen of the United States, related an experience which set him right when he first landed in America.

The story to be related has no bearing on Mr. Borgelt's three companions of today, however, it must be said.

When Carl prepared to leave his home folks in the old country his mother cautioned him not to make friends with any one, especially when he landed in New York, for there he would meet confidence men who would fleece him of his money.

On board the steamer to America, Carl met a neat-appearing individual, to whom he related how he had been cautioned by his mother. The individual at once took the hint and expressed a similar feeling, further cautioning Carl about the numerous ways confidence men have of fleecing their victims.

Carl thought he had a sure friend in this individual, and asked the latter if he would not keep the $100 in currency which he had with him until they arrived in New York and become settled, as he knew that the friend was accustomed to the tricks of "con" men and would not become a victim.

The stranger consented gladly, and took Carl's $100, and from the day they landed Carl has not seen hide nor hair of the man.

AMUSEMENTS

"The Girl From U. S. A."

A brand new attraction, of a type all its own, is making a strong appeal to playgoers this season under the catchy title "The Girl From U. S. A." It is a musical comedy drama of melodramatic tinge in which a vivacious American girl figures prominently in scenes laid in Paris, Constantinople and China. She and her Chicago husband that is to be strike a merry and strenuous gait in righting the wrongs of a pair of ill-fated Parisian lovers and make the power of the American flag felt in Turkish seraglio and Chinese palace. The new piece, which comes highly commended by the press of other cities, will be seen at the Sedalia theater Friday night, January 28. A talented company of singers and actors, assisted by a beautifully costumed chorus of fine singing voices, are promised in the performance here.

"Montana."

An event that is creating a great deal of interest is the engagement of Henry D. Carey's splendid American play, "Montana," at Wood's opera house, Tuesday, Feb. 1.

The phenomenal success of "Montana" the past five seasons attests not only to its popularity, but its merit as a play. It is conceded by eminent critics to be one of the few great western plays, and is classed with "Arizona," "The Girl of the Golden West," "The Squaw Man," etc.

After witnessing a performance the reason is very manifest. Mr. Carey has displayed rare knowledge of the west and its ways and given us a play redolent of the range, as broad as its prairies and as strong and rugged as its mountains. The characters are all human beings, not the swash-buckling, pistol-flourishing fire eaters of the conventional western melodrama.

Although "Montana" does not depend for its success upon masses of painted canvas or startling mechanical effects, yet the car load of scenery and properties carried by this production is a triumph of the scenic painters' art. This is especially true of the setting for the third act. As the curtain rises a gulch in the Rocky Mountains is disclosed in all its imposing grandeur, bathed in the deep blue rays of the full moon. So wonderfully realistic and imposing is the effect produced that one almost forgets that somewhere in this silent place little Flo has been carried by her abductors, and that somewhere in the rocky vastness to the westward, Jim is struggling, desperately wounded, to her rescue.

It may be honestly said that in cast, scenic equipment and dramatic worth "Montana" is the most pretentious western play now entour.

COMMISSIONER OF PENSIONS CELEBRATED BIRTH TODAY IN WASHINGTON.

HE BEGAN AS A MINOR CLERK

After Serving Through War He Entered Government Service, Rising By Merit to His Present Place.

Washington, Jan. 27.—James L. Davenport, the new commissioner of pensions, who was recently appointed to that post to succeed Vespasian Warner, is today receiving the congratulations of friends upon his sixty-fifth birthday. Beginning as a clerk in the pension office, Davenport has risen to the head of that important branch of the government service.

Mr. Davenport was first deputy commissioner of pensions, and the appointment was announced as a promotion.

James L. Davenport was born at Hinsdale, N. H., January 27, 1845, and received his early education in the district schools, later attending an academy for two terms. When the civil war broke out in 1861 and volunteers were called for young Davenport made several attempts to enlist, but was not accepted on account of his youth. In 1864, however, he went to Wisconsin and entered the army as a private. He saw active service until the close of hostilities in 1865.

Going to Keene, N. H., after the war, he clerked in a mercantile establishment for years, and then accepted a position as traveling salesman for a Boston dry goods house, in which he remained for ten years. Twenty-seven years ago Mr. Davenport came to Washington and entered the government service as clerk in the pension bureau, gradually rising until on May 24, 1897, he became the first deputy commissioner.

THEY CALLED THE POLICE

Party of Charivariers Dispersed Late Last Night.

A party of thirty or more charivariers assembled at the home of Mrs. C. Niederhelm, 1502 South Ohio avenue, at 8 o'clock last night to celebrate the marriage of C. W. Swick, a sheet metal worker from Glenwood Springs, Colo., to Miss Alice C. Niederhelm, which occurred Tuesday afternoon.

Tin tubs, tin buckets, rocks, stones and various other missiles were thrown against the door, with a view of charivaring the bridal couple, when suddenly one of the party cut the telephone wires to prevent the calling of the police.

The disturbance caused so much excitement that a neighbor two hours later called the police, and when the "blue-coats" arrived on the scene the charivariers began scattering and made their escape.

THE EPWORTH REVIVAL

Special Services in East Sedalia Increasing in Interest.

The revival at the Epworth Methodist Episcopal church at Sixth and Summit streets continues with increasing interest. Several were converted last evening and many manifested an interest in their spiritual welfare. The revival is reaching the men and most of the converts so far have been men.

Friday evening has been set apart for the railroad men, to whom a general invitation has been extended. Dr. Carlos will preach a special sermon, and he and Mrs. Carlos will sing a duet entitled, "Life's Railway to Heaven." Engineers J. Fred Williams, W. R. Finnell and J. R. Linabary will be at the throttle and George S. Hayden and John Barnhart will act as the conductors and collect the fares. They will be assisted by others.

On Sunday evening a chorus consisting of ninety-nine (99) men will sing "The Ninety and Nine." Dr. Carlos will preach on the subject of "The Return of the Prodigal Son."

There were twenty-two additions to the church last Sunday and many will be received next Sunday morning.

The services this evening will be of great interest. The pastor will preach on the subject, "Why Should I Be a Christian?" The choir will sing, among other selections, "Get Right With God" and "Somebody Cares."

OPPOSE CORPORATION TAX

Wichita, Kansas, Organization Will Meet to Enter Protest.

Wichita, Kas., Jan. 27.—Fifty Wichita corporations will meet tomorrow night to protest against the state corporaion income tax law. The time for filing reports on the incomes of Kansas corporations will ask that these dates be extended until the federal courts pass on the constitutionality of the law. The law provides that corporations shall pay a one per cent tax on incomes above $5,000. The Wichita corporations say the law is unfair in as much as it does not affect large firms that are not incorporated.

Free Sample Aids Old Men

The sudden change from years of activity of both body and mind to the quiet of later years causes the human system to undergo many changes, chief of which is in the digestive organs.

It becomes harder and harder to get the bowels to move promptly and regularly and in consequence many elderly men suffer not only from the basic touble, constipation, but from indigestion, headache, belching, sour stomach, drowsiness after eating and similar annoyances. It is first of all necessary to keep the bowels open and then to tone the digestive muscles so as to get them to again do their work naturally. A violent cathartic or purgative is not only unnecessary but harmful, and something mild will do the work just as well.

After you have got through experimenting with salts and pills and waters of various kinds, and have become convinced that they do only temporary good at best, then try Dr. Caldwell's Syrup Pepsin, a mild, gentle, pleasant-tasting laxative tonic that is especially adapted to the requirements of old people, women and children, and yet is effective enough for anybody. Your druggist, who has handled it successfully for a quarter of a century, will sell you a bottle for fifty cents or one dollar, but if you want to make a test of it before spending any money send your name and address to Dr. Caldwell and he will gladly send you a sample bottle free of charge.

This remedy is rapidly displacing all other forms of medication for the cure of stomach, liver and bowel trouble, and families like Mr. O. F. Wisher's of Sycamore, Ill., and Mrs. Carrie Culler's of 135 N. Notre Dame street, South Bend, Ind., are now never without it in the house. They have tested it and know its grand value to every member of the family.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, R.509 Caldwell building, Monticello, Ill.

HOCH DER KAISER

THE WAR LORD OF PRUSSIA IS FIFTY-ONE YEARS OLD TODAY.

ALL GERMANY FULL OF REJOICING

Emperor Is Showered With Congratulations and Holiday Is Observed —Many Socialist Orators Speak Also.

Berlin, Jan. 27.—All the monarchs of Europe showered congratulations upon Emperor William today, the occasions of the felicitations being the 51st birthday anniversary of Germany's strenuous kaiser.

As usual on Jan. 27, the city is today brilliant with flags and decorations and the illuminations tonight will be on a magnificent scale. A general holiday is on and the streets are filled with loyal subjects, cheering the emperor, while in hundreds of halls socialist orators are holding forth, preaching the coming commune, when monarchs will be no more.

According to the old Prussian tradition, the day was ushered in at 6 o'clock by the intoning of a chorus from the tower of the castle by a corps of trumpeters. At 8 o'clock the castle guard, headed by a military band, marched the length of Unter den Linden to the Brandenberg gate and back. The streets were lined by crowds and a large assemblage cheered the emperor when he appeared at one of the castle windows.

The emperor received the congratulations of the members of his family and his entourage. After religious services in the chapel the emperor and empress took up a position in the white room of the castle, before the throne, where they received the congratulations of the members of the diplomatic corps, including Dr. Hill, the American ambassador.

The conferring of a number of decorations and elevations to the nobility has been announced.

Day Observed In Washington.

Washington, Jan. 27.—His majesty, William II. Deutscher kaiser, celebrates his 51st birthday anniversary today, and his loyal subjects, wherever they may be found, as well as many of the Germans who have foresworn their allegiance to the Fatherland, will observe the event in a fitting manner.

The German ambassador, in honor of the occasion, will entertain the embassy staff and a number of prominent Germans of New York and Washington at a dinner this evening. It goes without saying that the black, white and red flag, with the imperial German eagle in the center, will fly from the flag staff of the embassy from sunrise to sundown.

AWAY GOES BACKACHE

JUST A FEW DOSES MAKES YOUR OUT-OF-ORDER KIDNEYS ACT FINE.

BLADDER AND URINARY MISERY GOES

The Most Severe Backache and Bladder Misery Simply Vanishes—A Healthy Urinary System Awaiting Every Man and Woman Here.

A real surprise awaits every sufferer from kidney or bladder trouble who takes several doses of Pape's Diuretic. Misery in the back, sides or loins, sick headache, nervousness, rheumatism pains, heart palpitations, dizziness, sleeplessness, inflamed or swollen eyelids, lack of energy and all symptoms of out-of-order kidneys simply vanish.

Uncontrollable urination (especially at night), smarting, offensive and discolored water and other bladder misery ends.

The moment you suspect kidney or urinary disorder, or feel any rheumatism, begin taking this harmless medicine, with the knowledge that there is no other remedy, at any price, made anywhere else in the world, which will effect so thorough and prompt a cure as a fifty-cent treatment of Pape's Diuretic, which any druggist can supply.

It is needless to feel miserable and worried, because this unusual preparation goes at once to the out-of-order kidneys and urinary system, distributing its cleansing, healing and strengthening influence directly upon the organs and glands affected, and completes the cure before you realize it.

Your physician, pharmacist, banker or any mercantile agency will tell you that Pape, Thompson & Pape, of Cincinnati, is a large and responsible medicine concern, thoroughly worthy of your confidence.

Only curative results can come from taking Pape's Diuretic, and a few days' treatment will make any one feel fine.

FADS OF FASHIONS

MERCHANTS OF METROPOLIS HAVE SPRING GOODS NOW ON DISPLAY.

NEW THINGS 'THEY' ARE TO WEAR

Linen Gowns Will Be Much In Evidence This Summer, So Says Buyer of Undoubted Authority—Serge Also.

By Catherine Mann-Payzant.

New York, Jan. 26.—The Christmas holidays had no sooner closed than the dry goods merchants began displaying the earlier consignments of linen and cotton dress goods, and during the past week one of the Broadway houses made a special feature of such fabrics, to which they gave up for exhibition purposes a whole section of their first floor.

It was bittery cold outside; but I found many women in heavy furs at the exhibit giving their orders as they passed from aisle to aisle, for it is considered none too early to buy cotton or linen gowns for next season. The prudent woman knows there is thrift and convenience in this early buying; she remembers that there is but a week or more before the spring sewing must be begun, and she knows that the choicest designs must be secured now.

My first stop was made before a table on which was displayed a heavy cotton fabric in a coarse canvass weave of uneven threads like those in the pongees. It was beautifully mercerized, shown in many delicate colors and intended to serve in the place of linens for suits, coats and the heavier whole-piece costume of early summer. Thirty-six inches wide they are sold at forty-eight cents a yard and would make up satisfactorily in one of the new Russian blouse designs.

Close beside the canvass weaves were some excellent examples of Himalaya cloth and a design for this material was shown me by a visiting dressmaker. It was intended for early wear in the south. The shade used was biscuit color, trimmed with embroidered black bands. The skirt was of the seven-gored variety. Six tucks decorated the bottom of the skirt, above which were two bands of the black embroidery. The coats, of the Russian blouse order with its long skirt portion, was also decorated with a band, which followed the lower edge and up the right side and around the neck. The sleeves were of the usual blouse variety, finished with cuffs of the banding. The hat to accompany the costume was a large black straw trimmed with a huge wing held in place by a jet buckle.

My second halt was made among some English novelties for which no special name seems to have been found; they closely resemble some of the wool mixtures, having self-colored silk designs, which in the case of the cotton goods are done in mercerized threads. Here was found a cotton crepe in an attractive apricot shade, a voile in blue that would make up well for a country dance next summer.

The rose pattern still obtains among the organdies. There were some lovely Dresden patterns shown in both the French and the domestic organdies, and one covered with tiny pin dots was overstripped with a silk line. A plain organdy in white would be decorated with the green net border that was woven with it. The French organdies cost about 90 cents, while those of domestic weave range from 20 cents upward.

For the semi-tailored dresses there are the cotton poplins, crash, cotton pongees. The new crash weaves are in effect coarse, but in reality are extremely supple and soft with a mercerized finish. They will be useful in suits and coats for traveling, or for wear at the sea side. Linen hapsacking and other such loosely woven materials promise to have a large following from the numbers offered and for early summer they make very pretty gowns.

Some of the designs to be found among the batistes might have been copied from these worn by our grandmothers, but are dainty, recalling the scent of rose leaves, old gardens and sweet lavender buds.

The cotton or mercerized foulards which copy so well the real material are not to be confounded with the material once known under this name. The new goods has more body, it is supple and comes in nearly every design used for silk variety.

Cotton bengaline, cotton repps, a mercerized ottoman, crepon and numberless other goods that are woven to resemble the silk and the woolen goods are offered the buyer with price that range from 25 cents up.

Perhaps there is no summer gown that is so satisfactory or serves so many purposes as the linen frock or costume suit. A French linen costing 80 cents a yard and thirty-six inches wide was a particularly fine example of the new linens, which are exceptionally even and finely woven with a soft supple finish. A display of the new linen costumes shows them largely made up of embroidered parts, such as the front or side panels, the fronts of the coat, garnitures for the waist; and for the dressy costumes very litle of the plain linen is used. Wide bands of the plain material are used as a frame work for the setting in of these beautifully decorated pieces. Some of these gowns or costumes come as do the lingerie robes, ready for putting together.

The conservative woman will no doubt prefer buying her linen and embroidery separately, as a better quality can thus be secured for the same price, and such women are not fond of so much over-elaboration. The offerings in embroidered trimmings is very large and some wonderful combinations of embroidery and lace are shown this spring.

In the semi-mode robes of lingerie linens, organdies and muslins there are hundreds of beautiful patterns. One of the favorites is that of embroidery upon white ground, and some very beautiful effects are thus gained. A number are made with borders and a hemstitched hem in the color of the embroidery.

One of the buyers of our largest New York houses assures me that the linen gown will be as much in evidence this summer as in the past, that the colored linen will be largely used on the street, that the white linen will be considered the dressier and worn on those occasions when the colored linen would be out of place. At least, this is what the makers are trying to effect.

The white serge suit will come to the fore in a few weeks, first for those who are fortunate enough to be able to go "south," a term that covers a vast territory. Perhaps the popularity of the white serge is owing to its usefulness to the traveler or woman of affairs, as it clings easily and always looks well.

I have been asked if braiding will be used this season. While the amount of braiding has been lessened, the rat-tail braiding is very fashionable, and is particularly effective when applied to net or canvass-meshed goods.

A letter from Paris gives us the names of some of the new colors, pain brules (burnt thread), prune de monsieur, a purple having a dash of blue mousse, which is a little darker than the ordinary cream shade. Saffron and cannelle, when it has more of brown than yellow in it; linen tilleul bleu de nuit, blue-black, a shade our great-grandmothers were fond of, and ardoise, a new slate color.

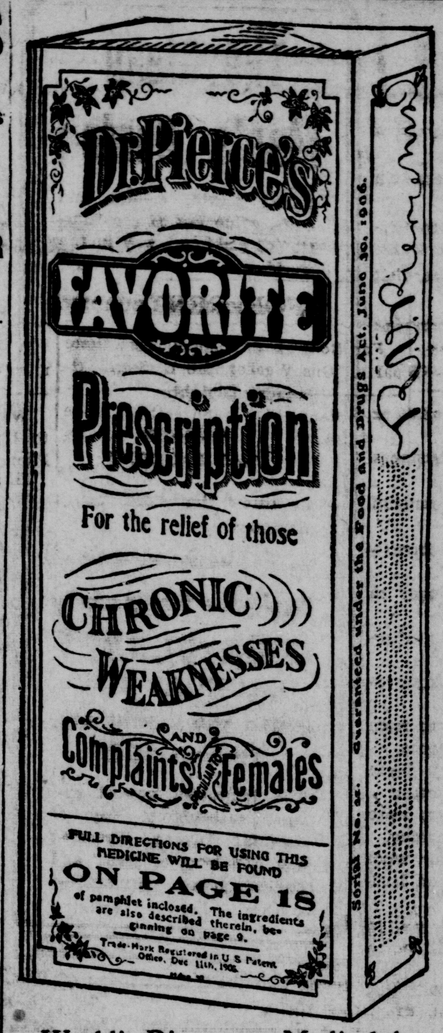

The new patterns in the Scotch ginghams and zephyrs show a variety of designs and will make up well into all sorts of utility gowns. For children's clothes their wearing qualities are unsurpassed.

Mrs. Gunn is giving universal satisfaction with her Readings, Tests and advice. Mrs. Gunn should be consulted at all times, instead of going to unreliables, who come along, dupe the public, then leave between two days, going to parts unknown and under assumed names. Woman's True Friend

Experimenting with new and untried medicines is foolish, and often dangerous. It would take a medicine more than forty years, to prove itself so universally good as Dr. Pierce's Favorite Prescription. During all that time it has been woman's favorite medicine—a restorative tonic, uplifting and invigorating the nervous and discouraged and giving them the final touch of perfect health.

Women use Dr. Pierce's Favorite Prescription in preference to all other advocated medicines for it contains no alcohol or habit-forming drugs—is not anything like advertised, secret, or patent medicines—does not claim to be able to do impossible things.

THE ONE REMEDY for women devised by a regularly graduated physician of vast experience in woman's ailments, and adapted to her delicate organism.

THE ONE REMEDY good enough that its makers are not afraid to print its every ingredient on its outside wrapper.

You can't afford to allow yourself to be overpersuaded into accepting any *secret* nostrum as a substitute for this honest square-deal *non*-secret medicine. Don't do it. No *honest* druggist will attempt to cheat you in this way. He who does should be rebuked and avoided. Doctors prescribe Dr. Pierce's Favorite Prescription for their worst cases because they know what it contains and know its ingredients to be of the very best.

It's well now and then to gently cleanse out bowel germs that breed weakness, cause foul breath, loss of appetite, dizziness and headache. Dr. Pierce's Pleasant Pellets keep bowels sweet and clean. Recommended by druggists because of their purity, goodness, and active gentleness.

BEGINS HIS LESSONS

Schooling of Kerens at Washington to Last Several Weeks.

Washington, Jan. 27.—Richard C. Kerens has begun a course of schooling in the business of being an ambassador of the United States. The tutoring will require about two weeks. He will then sail for Vienna to represent the United States in the capital of Austria-Hungary.

"Colonel" Kerens first called on President Taft. After the St. Louisan had properly thanked the president and Taft had sufficiently felicitated him, he proceeded to the state department. There he was greeted by Assistant Secretary of State Huntington Wilson. Mr. Wilson turned him over to Third Assistant Chandler Hale, who is at the head of the European division.

Meanwhile the colonel will get experience lessions while he is here. Being now an ambassador, he goes on the lists for all the functions of the diplomatic corps in Washington. So that from observation he will learn many of the necessary tricks of his trade before he starts.

NO MORE CHEAP CORN

Extensive Grower Says Prices Are Up to Stay for Years.

Tarkio, Mo., Jan. 27.—David Rankin, the greatest corn grower in the world and one of the largest feeders of cattle and hogs, is of the opinion that there will be no more cheap corn for many years. The use of the various corn products and the great increase in the export and home trade are given as reasons for continued high prices by Mr. Rankin. He says that the consumers are increasing in greater ratio than the producers, while, owing to the ignorance of the laws of fertility, the amount raised per acre is constantly growing less.

WHEN HER BACK ACHES

A Woman Finds All Her Energy and Ambition Slipping Away.

Sedalia women know how the aches and pains that come when the kidneys fail make life a burden. Backache, hip pains, headaches, dizzy spells, distressing urinary troubles, all tell of sick kidneys and warn you of the stealthy approach of diabetes, dropsy and Bright's disease. Doan's Kidney Pills permanently cure all these disorders. Here's proof of it in a Sedalia woman's words:

Mrs. J. N. Elmore, 501 E. Third St., Sedalia, Mo., says: "A dull pain in my back and shoulders made me miserable and I was so lame at times that to arise from a chair or to stoop was an extremely difficult operation. A weakness of the kidneys also caused me great annoyance and I became worried about my condition. Finally I began using Doan's Kidney Pills, procured at Bard's drug store, and before long I was free from the trouble. Since publicly endorsing this remedy in 1906, I have had but little annoyance from my kidneys and therefore, I gladly confirm my former statement."

NEGRO SAVED FROM MOB

Officer Spirits Away Man Accused of Attacking Woman.

De Soto, Mo., Jan. 27.—William Gill, a negro, 35 years od, was rescued from a mob of Jefferson county farmers, determined upon lynching him, and placed in the jail at Potosi, Mo.

Gill is held on a charge of assaulting Mrs. Charles Clancy, wife of a farmer living about eight miles south of De Soto. He had been employed on the Clancy farm for many years.

Tuesday night, after Mrs. Clancy had retired, she asserts, the negro came to her room and attacker her. Her three children gave the alarm to the neighbors and a search was made for Gill. He was found at his home, a mile away.

In a short time a mob was formed, determined to hang the negro.

Mr. Clancy was at the home of his father, who is ill, when the attack on his wife was made.

Called on "Mr. Anthem."

At an English school, once upon a time, when a concert was being held, the choir was on the program to sing an anthem, and their place was designated by the single word "Anthem." The gentleman who was master of ceremonies, a high-toned, pompous individual of the old school, when he came to that part of the program, announced, in a dignified way: "Mr Anthem will now favor us."

NEWS OF THE RAIL

SOON TO DECIDE WHAT WILL BE DONE IN THE MERGER SUIT.

COACH, CAB AND CABOOSE ITEMS

Matters of Interest Picked Up From Various Sources for the Benefit of Democrat-Sentinel Readers.

Washington, Jan. 27.—President Taft, it is expected, will soon be in a position to announce whether the government suit to dissolve the merger of the Union Pacific and the Southern Pacific railroads is to be continued by the department of justice or to be dropped.

Attorney General Wickersham has been put in possession of the brief of the defendants containing arguments why the suit should be dismissed.

The railroad interests contend that the government can not win the suit on the issues presented, and for this reason, among others, they urge that further proceedings be dropped. It is argued that the two railroad lines are not competitive.

Mr. Wickersham is to prepare a memorandum for the president.

Depot at Lewis Robbed.

B. E. Cole, an M., K. & T. secret service officer, returned last night from Lewis station, south of Clinton, where he investigated the robbery of the depot, which occurred Tuesday night. The intruders smashed a window pane, leading to the waiting room, after which they broke open the chewing gum machine, stealing the contents, which included about $2 in money.

Former Sedalian Going Up.

Robert M. Campbell, ten years ago assistant agent for the Missouri Pacific railway at Warsaw, later connected with the company in Sedalia, and of late city passenger agent for the Chicago & Alton railway at Kansas City, has resigned to become connected with the Southwest Terra Cotta company, a newly organized firm of Kansas City.

Bayliss Steele, of Kansas City, a brother of Hon. W. D. Steele, of this city, is president of the company.

A. N. Chambers, an M., K. & T. brakeman, is laying off. Ernest Weise is filling the vacancy.

C. Alford, an M., K. & T. brakeman, today "bumped" E. M. Keithley from passenger runs.

M. D. Johnston, a Missouri Pacific hostler, left today for a visit at Warsaw, Lincoln and Cole Camp.

Roy Bradfield, an M., K. & T. brakeman, who has been suffering from an injured back, reported for work today.

Superintendent N. J. Finney and Roadmaster Arthur Frakes, of the Katy, are touring the north end today.

Harry Beal, a former Missouri Pacific baggageman, left this afternoon for El Paso, Texas, where he will locate.

F. C. and August Lietzke, M., K. & T. firemen, are bedfast with measles at their home, 420 East Eleventh street.

C. E. Parish, an M., K. & T. engineer, reported for work today, after attending the McCloskey-Lafferty wedding.

Roy Harrison, an M., K. & T. brakeman, has been assigned to the advertised vacancy on the Sedalia-Nevada local, with Sunday at Nevada.

F. J. Staples, a Missouri Pacific conductor, who recently resumed work after a layoff of several months, is on the sick list. R. J. Sullivan is taking care of his run.

Tom Heston, a former Sedalian, now a train auditor for the Missouri Pacific, passed through this afternoon on train No. 1, which was in charge of Conductor James Merrifield.

J. H. Lafferty, a Missouri Pacific conductor, and J. H. Lafferty, jr., a brakeman, reported for work last evening, after attending the marriage of their daughter and sister, respectively, Miss Mae E. Lafferty, to C. F. McCloskey.

L. C. Redmond, assistant general foreman of the Missouri Pacific telegraph department, left this morning for a business visit in Kansas. Mr. Redmond will arrange for the distributing of material for a new line from Osawatomie to Pueblo.

SALOON THOUGHT NO. 302.

Business Reasons Advanced.

The circulation by saloon sympathizers of a petition caling for a re-submission of the saloon question in Osceola county, Michigan, which has prospered under the no-saloon regime, has been met by the business men of the county by a counter-petition in which is given the following reasons for continuing the no-saloon policy:

"The beneficial results to this community from local option are not confined to the lessened drunkenness and disorderly conduct of the members, but extend to business conditions. It is a noticeable fact that men who formerly wasted their time in the saloons and spent what money they earned for drink, leaving their wives and families to eke out an existence on charity an assistance from the town, are now self-supporting and industrious citizens.

"The money formerly spent for drink is now spent on the families of the drinkers and a two-fold benefit accrues to the community. This class now pays its debts and is self-supporting and the children are growing up into law-abiding, self-respecting men and women, instead of criminals and paupers. We know that local option in this community has been and is a success, and its repeal at this time would be a public calamity."

READY FOR KNIFE

WIFE FINDS HER HUSBAND'S BODY ON A DISSECTING TABLE OF COLLEGE.

STUDENT HAD SCALPEL IN HAND

Died in Hospital and Body Being Unclaimed, It Was Given Over to the Medical Students of University College.

Kansas City, Mo., Jan. 27.—The big clock in the dissecting room on the third floor of the University Medical college had just struck 8, and Francis Shockley, E. B. Pulliam, Edward Morris, John M. Walker and J. C. Walker, medical students, were in the act of applying the knife to the body of a man who had given his name as Frederick Gardner, supposed to be an English lord.

In all the history of medical colleges in Kansas City no student has ever had the honor of dissecting a British lord, and all the students of the University college were eager for that privilege. They drew lots to see who would get to work upon this one. These five won, and they gathered about the table upon which the body lay.

Shockley had his scalpel poised over the body when there came a loud knocking at the locked door.

"Who's there?" shouted the students. "Let me in," came a woman's voice from the other side of the door. The lock was turned and in walked the representative of an undertaking company and Mrs. Martha Hartman.

The woman, with a shudder, strode to the operating table, despite the efforts of the students to keep her away.

"Stop. That is my husband,' she cried, and fainted, falling into the arms of the undertaker. When she had been revived Mrs. Hartman explained that the body was that of her husband, Frederick Springer, alias Hartman, alias Gardner. She lost track of him when he was taken to the general hospital from a rooming house in December, and did not know he was dead until last Saturday.

It took her from Saturday to find out what had become of the body. An investigation developed the fact that the man had died in the hospital December 28 from pneumonia. At the hospital he gave his name as Frederick Gardner. He said he was an English lord in hard luck. Hospital officials kept the body for two days while they made inquiry for relatives or friends, and then the body was turned over to the medical college.

On the toe was tied a tag bearing the name Frederick Gardner. Mrs. Hartman said her husband's father is Charles Springer, a well-to-do Englishman of Iowa City, Ia. from whom the son had been estranged for many years. She had never heard of his royal lineage.

BLOODLESS SURGERY

Nature never intended the human body for the carvers' table. The most eminent physicians of Europe have long ago discarded the reckless use of the knife. The phenomenal success and wonderful results obtained by Dr. Casto, Chief Specialist of the Dr. Casto Medical Co. has excited much admiration. His new system of Bloodless Surgery Treatment for the cure of enlarged glands and their existing complications has earned for him a wide reputation, and while many patients come from long distances in other states to seek his services, he takes great interest in the cures he makes at home, especially such cases that have suffered from the reckless use of the surgeon's knife. Miss Olds is one of Sedalia's most popular young ladies, and feels very grateful toward us for restoring her to health.

A Victim of the Surgeons Knife

STELLA OLDS.

Miss Stella is a very refined young lady of this city, residing at 1720 S. Missouri avenue. She has a wide circle of friends who are much impressed at the great benefit she has received while taking a course of our new system of treatment for enlarged glands of the throat and neck. She had suffered intensely, having been a victim of the surgeon's knife, and was all broken down in health and strength. Her affliction was evidently of tubercular origin and had reached her lungs. Everyone knows that such conditions are regarded as serious, and if unchecked, the inevitable result is only a matter of time; but we take much pride in our great achievement, after a four months' course of treatment in being able to arrest her disease. Her cough is gone and she is now enjoying the best of health.

Dear Doctor Casto, Chief Specialist of the Dr. Casto Medical Co.

I am so thankful for what you have done for me. I was very much discouraged when I went to you for enlarged glands of the throat and a very bad cough, for I had been doctoring for a long time and had been operated upon by having the glands of my neck cut out, but the trouble soon returned and I was very despondent. I can never praise your new system of treatment too highly, for I now feel like a new person. My troubles have all disappeared and I have gained wonderfully in health and strength. Wishing you all the reward you so richly deserve,

I am ever yours most gratefully,

STELLA OLDS,

1720 South Missouri Avenue, Sedalia, Mo.

This New Scientific Discovery

This new scientific treatment has astonished the medical world. It embraces all the intricacies of embryology and cellular reconstruction. It supplies to the blood cells the very elements that enter into the composition of the parts affected, thereby assisting nature to take on new life, absorbing the disease and restoring the parts to their normal condition. In connection with our Inhalatorium treatment, it is applicable in a wide range of abnormal conditions. If you are a sufferer, we will take pleasure in examining you Free of Charge, then we will be able to tell you just what we can or can not do for you.

PRIZE BUFFALO STORY

Missourian Seems to Be Ahead in Telling How Many He Saw.

Odessa, Mo., Jan. 27.—"Uncle Pat" Marshall refuses to take a back seat when it comes to spinning yarns. He has just won new laurels by telling a buffalo story which leaves all competitors at the post. It is not likely that he would have remembered the incident had it no been for two of his friends who became engaged in discussing the buffalo question. One of them, T. L. Hockensmith, said that he had seen as many as 50,000 buffalo in one herd. His companion, Tom Carmichael, not to be outdone, said: "Shucks, that's nothing. Why, I once saw 500,000 in a week's travel." This was too much for Uncle Pat, who immediately got busy and told a buffalo story that unquestionably has some class to it. He said:

"It is very evident, boys, that you were never on the plains or you would have seen more buffalo than that. Why, once when I was on the old Santa Fe trail from Independence to Santa Fe I saw a million buffalo every day for a week."

MUCO-SOLVENT—WHAT IT IS AND WHAT IT DOES

It had its origin in the private formula of a physician of a large practice, who did not lose a case of diphtheria in twenty years.

As a specific for preventing and arresting the development of CROUP, WHOOPING COUGH, DIPHTHERIA, COUGHS, COLDS AND MEASLES, it has never been equaled. In every community where MUCO-SOLVENT has been adopted it arrested fatalities and quickly stamped out the epidemics, many of which were, before its adoption, among the most serious ever recorded. MUCO-SOLVENT wins its victories by destroying the germs and microbes of disease.
